FROM: CINCFE TOKYO JAPAN

TO: DEPTAR WASH DC FOR G-2

NR: C 54248 26 JAN 51

Uxmsg DA 81977. All available information on Communist strength is published in Battle Order Section Daily Intelligence Summary. Our figures on Manchuria are obtained from Chinese Nationalist, Attache, CIA and other sources already available to you, therefore they should not be accepted as an additional qualifying source. Current CCF strengths include loss adjustments. Based on figures contained in DIS 3034 and in DIS 3061 plus Jan reports from non-FEC agencies, the following estimates are submitted:

A. Total CCF strength in Korea-2735 hundred.

B. Total Chinese Communist regular ground forces in Manchuria, a replacement potential-624 thousand.

C. Military District Forces in Manchuria-370 thousand.

D. Information on Militia and irregular forces in Manchuria is vague; possible aggregate-3/5 hundred thousand.

E. Total NKA strength in Korea-2035 hundred.

F. Total NK tng in Manchuria-130/2 hundred thousand.

G. Other Communist strengths: (USSR troops on Liaotung Peninsula)- 602 hundred.
